

**A**

**B**

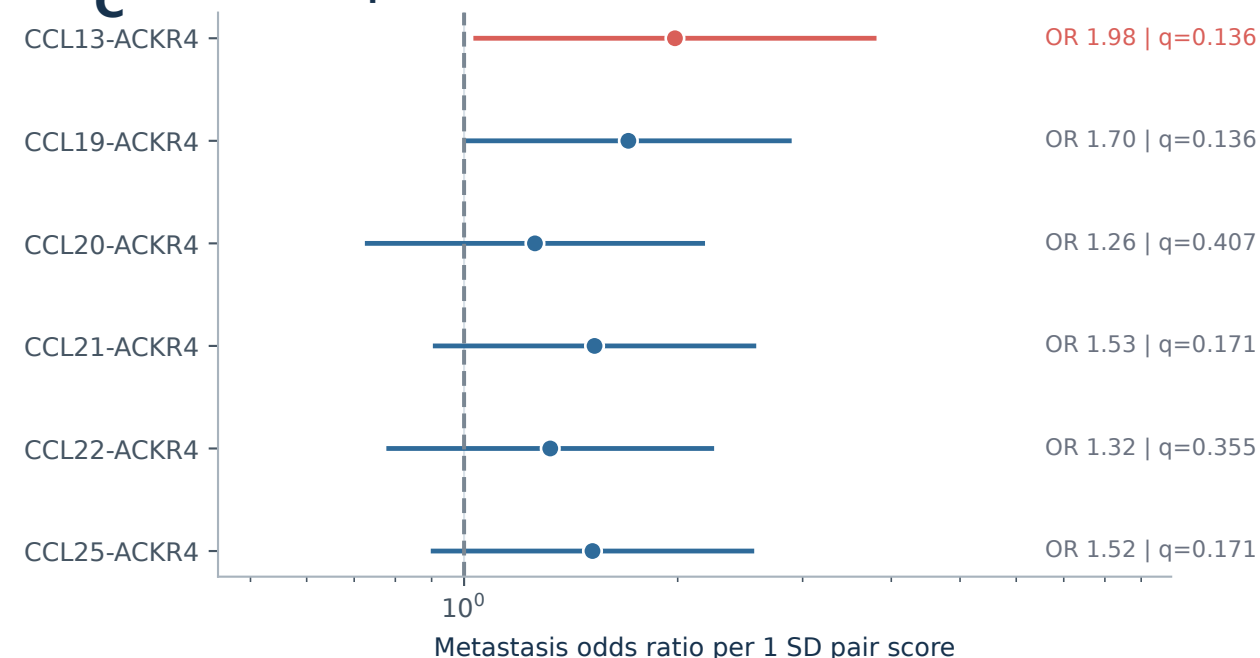

### Curated binding evidence changes the candidate framing

- CCL13 | not established
- CCL19 | established
- CCL20 | supported
- CCL21 | established
- CCL22 | supported
- CCL25 | established

CCL13 was retained as the database-derived candidate, not as an established ACKR4 ligand.

**C**

### No fixed-panel association survives FDR correction

Datasets with any detection (%)

### D Detectability does not establish binding or signaling
